

## Prophecy for Testing

### Prophecy given to Per Johnsen:

"We say that your life will become more active now, that the changes will come, that you will become more fluid and spontaneous. And we say that joy and peace is coming into your life for the first time ever. You have had much happiness, but happiness is on the outside. Joy and peace ... come from the inside. An incredible joy and peace will come from knowing exactly why you are here and what you have to do. This will begin near the end of February and by the autumn you will know exactly what you are going to do for the rest of your life.

There will be no problems. No problems at all, because we say it very simply this way: God has sent you great help in this lifetime to do mighty works. Because you have worked for God for so many lifetimes in your way, quietly, persistently, we are going to see the light in you shine brighter than almost anyone can imagine. Certainly brighter than you can imagine right now. And many people will be quite amazed. You know God's people rise out of the masses. We could not spot them. They are not flashy ... they are very quiet, humble people, who deeply understand. They even understand more than they understand. And when the moment is right, they rise out of the masses and they do the work that no other man can do, except them. Because the quietly persistent are the people who always succeed, you will succeed - there is no doubt about it."
